

## Risk assessment tool for events

If you answer "yes" to questions 1-4 below, consider whether implementation is justifiable.  
If you can answer no to all the questions, the event has a low transmission risk.

<b>Risk factor</b>	<b>Yes</b>	<b>No</b>	<b>Risk-reducing measures that can be implemented</b>
1. Transmission of COVID-19 in the municipality			
2. International participation from outside the Nordic countries			
3. Participants who are critical workers (healthcare workers or others)			
4. Participants in risk groups (elderly people and people with chronic conditions)			
5. Indoor event			
6. High density between participants / performers / audience			
7. Hygiene measures insufficient (hand washing, disinfection)			
8. Insufficient number of toilets			
9. Catering service that encourages gathering of people			
10. Alcohol serving			
11. Insufficient transport capacity			
12. Event of longer duration
