Form for ordering a vaccination card by email if you do not have access to Helsenorge.no

If you do not have access to the vaccination service at Helsenorge.no, Norwegian Institute of Public Health (NIPH) can send a vaccination card to you by email. Vaccination details are health information, so we can only receive and send this information by encrypted email.

To order a vaccination card by email, you **must complete the order form** and **make a copy of your passport**.

The order form and passport copy **must be encrypted** and emailed to: sysvak@fhi.no. We recommend using 7-Zip, a free and secure encryption solution. Send the password needed to open the encrypted files by **text message to SYSVAK: +47 945 27 583**.

If you are the parent or guardian of a child under 16, you may order a vaccination card on behalf of the child in your care. Complete the form on behalf of the child and **enclose copies of both your passport and the child's passport**. Once your child turns 16, they are legally competent in health matters and must order the vaccination card themselves as described above.

If you have access to the vaccination service at Helsenorge.no but would still like the vaccination card sent to you by email, the price is NOK 125 per card. You will receive an invoice separately.

The vaccination card will be sent to you by encrypted email, usually within 7 days of receipt of the order. The maximum processing time is 30 days.

Order form:

Name of the person requesting a vaccination card:
Norwegian national identity number/D number (11 digits):
Email:
Telephone number:
Name of parent or guardian ordering for a child under 16:
Parent or guardian's date of birth (DD.MM.YYYY):

Place:	Date:	Signature:
