Form for ordering a vaccination card by post if you do not have access to Helsenorge.no

If you do not have access to the vaccination service at Helsenorge.no, Norwegian Institute of Public Health (NIPH) can send a vaccination card to you. Complete the form and send it to us by post.

We send vaccination cards to the address registered in the National Population Register, both in Norway and abroad. If you would like the vaccination card sent to an address other than the one registered in the National Population Register, you must **enclose a copy of your passport**.

If you are the parent or guardian of a child under 16 who needs a vaccination card, you may order one on behalf of the child in your care. Complete the form on behalf of the child and **enclose copies of both your passport and the child's passport**. NIPH has a separate ordering service for young people aged 16 to 18: https://www.fhi.no/en/va/mine-vaksiner/vaccination-card-16-18/

If you have access to the vaccination service at Helsenorge.no but would still like the vaccination card sent to you by post, the price is NOK 125 per card. You will receive an invoice separately.

The vaccination card is usually sent within 7 days of receipt of the order. The maximum processing time is 30 days.

Order form:

Name of the person requesting a vaccination card:
Norwegian national identity number/D number (11 digits):
Address to which the vaccination card should be sent:
