

TRANSMISSION OF CORONAVIRUS IN KINDERGARTENS

To parents: please read this information together with your child to make sure your child understands what the project involves

PROJECT INFORMATION

- VIRUSES ARE SMALL CREATURES THAT CAN MAKE US ILL
- VIRUSES ARE SO SMALL THAT WE CANNOT SEE THEM
- SOMETIMES A CHILD CAN BECOME ILL FROM A VIRUS
- ONE TYPE OF VIRUS IS CALLED CORONAVIRUS AND IT CAN BE DRAWN LIKE THIS:

- CORONAVIRUS IS SPREADING IN NORWAY AND ACROSS THE WORLD .
- CHILDREN CAN BECOME INFECTED, BUT OFTEN THEY ARE NOT VERY ILL
- DO YOU WANT TO HELP US TO FIND OUT IF THE CORONAVIRUS IS SPREADING IN YOUR KINDERGARTEN?
- IF YES, WE NEED SOME OF YOUR SPIT. YOU CAN EITHER SPIT INTO A CUP, OR AN ADULT CAN HELP TO COLLECT SPIT FROM YOUR MOUTH USING A SPECIAL STRAW. THIS NEEDS TO BE DONE TWICE, WITH A FEW DAYS IN BETWEEN.
- WE WILL LOOK TO SEE IF THERE IS CORONAVIRUS IN YOUR SPIT
- WE WILL ASK AN ADULT AT YOUR HOME TO TELL US A LITTLE ABOUT HOW YOU FEEL (IF YOU HAVE A TEMPERATURE? OR HAVE A COUGH? ARE YOU ILL?)
- WHEN ALL CHILDREN ARE HEALTHY, YOU CAN PLAY TOGETHER AGAIN AT YOUR KINDERGARTEN 😊

THE ILLUSTRATION:

- SOMETIMES SOMEONE IN THE KINDERGARTEN GETS ILL
- WHEN YOU OR SOMEONE ELSE IN THE KINDERGARTEN HAS CORONAVIRUS, WE WOULD LIKE TO KNOW MORE AND WANT TO CHECK YOUR SPIT
- YOU WILL HAVE TO SPIT IN A TUBE TWO TIMES, WITH SOME DAYS IN BETWEEN. MUM OR DAD CAN HELP YOU
- YOUR PARENTS RECEIVE A FORM WHERE THEY WILL WRITE HOW YOU FEEL
- WHEN EVERYONE IS HEALTHY, YOU CAN PLAY TOGETHER AT THE KINDERGARTEN

Noen ganger blir noen i barnehagen syke.

Hvis du eller noen andre i barnehagen har fått koronavirus, vil vi finne ut mer og undersøke virus i spyttet ditt.

Foreldrene dine får et skjema hvor de skal svare på hvordan du har det.

Kjære foresatte!

Hilsen

Da må du spytte i et glass to ganger, med noen dager imellom. Mamma eller pappa kan hjelpe deg.

Når alle er friske, kan dere leke sammen i barnehagen igjen.
